The new edition of Let's Review Math A and Barron's Regents Exams and Answers, Math A are combined in a two-book package. Purchase of this two-book Power Pack represents a retail savings of \$2.95 as compared to the price of books purchased separately. This major revision prepares students to succeed on the New York State Math A Regents Exam as it is now given. The book places increased emphasis on use of the graphing calculator, and in line with New York State Regents core curriculum, it shows how given problems can be solved in several

different ways. The author also includes new Regents question types dealing, for instance, with motion problems and mathematical systems defined by tables. The totally rewritten chapter on problem-solving offers students a core set of strategies that apply to curriculum-related exercises. In addition to subject review, practice questions and exercises, the book also presents some complete recent Math A Regents exams with answers.

Nowadays, students are struggling to learn math and pass exams. They are overwhelmed with information from lengthy textbooks, review books, and many math websites. With limited time, students cannot benefit from all these resources. Our students need only one concise book to help them review and prepare for the Geometry Regents exam. This is the book! "No more. No less. Just right." This book is structured in three parts: 1. A Geometry review that will help students remember all the key topics and build their problem solving skills through the use of examples. 2. A practice section with real Regents questions. 3. Answers and explanations. The topics for the practice questions correspond to the sections in the Geometry review. Students can easily refer back to the matching review sections, while they are doing the practice. This review book is geared towards helping students succeed with high scores on the Regents exams.
